SCAN FOR MY WORK

PROFILE

Computer and Information Sciences student (graduating 2027) with a Higher Certificate in Mobile Applications and Web Development. I design and build real websites and applications, and I have a strong grounding in software development, system analysis and data management. I learn new technologies quickly and use them to solve problems and make processes more efficient. Seeking a junior developer, web development, data analyst or hardware role in the Durban area.

KEY HIGHLIGHTS

- Built and published **3 client-style websites** alongside full-time study, led by the Isiqalo Med project.
- Combines **software development**, **design** and **hands-on hardware** skills, which is uncommon in a junior profile.
- Public GitHub portfolio with source code for every project listed below.
- Leadership, project management and public relations skills developed through study and project work.

WORK EXPERIENCE

Web Developer and Designer

Isiqalo Industries | Durban | Present

- Designed, built and published websites for **Isiqalo Med**, **Laser Air Conditioning (Pty) Ltd** and **Rejuv Aesthetics**, covering layout, branding and front-end development.
- Led **Isiqalo Med**, my largest build to date, from planning through to a working product, with the full source on GitHub.
- Managed each project end to end: gathering requirements, scheduling the work and delivering to the client.
- Computer hardware assembly and day-to-day IT support.

PROJECTS

Isiqalo Med (flagship)

github.com/theyyluvpreeths/ISIQALO-MED

My largest project and the centrepiece of my portfolio, with its own dedicated case study on my CV website.

Laser Air Conditioning (Pty) Ltd

github.com/theyyluvpreeths/Laser-air-conditioning-PTY-LTD

Business website built for an air conditioning company.

Rejuv Aesthetics

github.com/theyyluvpreeths/rejuv_Aesthetics

Business website built for an aesthetics practice.
